Awesome Power BI

Power BI

It is so easy to start with Power BI, but hard to master it.

"Power BI is a business analytics solution that lets you visualize your data and share insights across your organization, or embed them in your app or website. Connect to hundreds of data sources and bring your data to life with live dashboards and reports."

Storytelling

Reporting is just the presentation of data , but story telling is more engaging. Effective data storytelling uses language and visualization to help the audience engage and connect with the larger meaning.

- Quotes
 - "Storytelling is the oldest form of education." -- Terry Tempest Williams
 - "A great lasting story is about everyone or it will not last. The strange and foreign is not interesting--only the deeply personal and familiar." -- John Steinbeck
 - "A story that contrasts the present with the future needs a great deal of trust." -- Doug Rose
 - "Numbers Don't Lie, But Charts Do"
 - "Stories activate the same parts of our brains that are activated when processing real experiences."
 - "The data means nothing without context, without the story form around it." -- Bill Shander
 - KWYs -- Bill Shander

- KWYRWTS "Know What You Really Want to Say"
- KWYDIS "Know What Your Data is Saying"
- KWYANTH "Know What Your Audience Needs to Hear"
 - "A story is 22 times more memorable than facts alone." -- Jennifer Aaker
 - "ASK - Accurate . Story . Knowledge" -- Bill Shander
 - "Stories make data analysis accessible to a wider audience. They also make analysis more engaging." -- Kubicle.com
- Hints
 - A Power BI dashboard is made up of tiles that, together, tell a story. -- Microsoft
 - Each report page is telling a story. To fully understand the story, you need to know if filters are being applied and what those filters are. -- Microsoft
 - A visual represents a single table, chart or diagram. A dashboard brings together several related charts to tell or story about the selected data. -- CFI
